Subject: FW: Support for San Francisco compost giveaway program
Attachments: NEBRA_SFPUCSupport-Feb10.pdf

I think this is a really nice letter. Ty, not sure if you want to (or if you want me to) forward to Johanna.

Natalie:

Attached is the final, Board-approved letter from NEBRA to Mayor Newsom. I am putting a printed copy in the mail Tuesday to him and to each of the other two you suggested copying. And one hard copy to you as well.

Best regards,

Ned

Natalie:

Attached is a draft of the letter, which is still under review by the NEBRA Board (so it may change some). This is to give you a sense of what we thought would be helpful. It can be addressed to anyone you think makes sense. If you think it should take a different approach or whatever, just let me know.

Thanks,

Ned
